AMENDMENT OF THE WHOLE

FILE NO. 112-80 ORDINANCE NO. 432-81

AMENDING ARTICLE 11, CHAPTER V (HEALTH CODE), PART II, SAN FRANCISCO MUNICIPAL CODE BY AMENDING SECTIONS 596 AND 599 THEREOF, PERTAINING TO THE ABATEMENT OF NUISANCES BY THE DIRECTOR OF PUBLIC HEALTH AND THE ESTABLISHMENT OF ASSESSMENTS AND LIENS FOR THE COSTS EXPENDED THEREIN.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Article 11 of Chapter V (Health Code) of Part II of the San Francisco Municipal Code is amended by amending Section 596 and 599 thereof, to read as follows:

SEC. 596. INSANITARY BUILDINGS, ETC.

(a) Definition. All buildings, structures, or parts thereof which are insanitary are hereby declared to be and are nuisances, and the Director of Public Health is hereby authorized and empowered to abate the same in the manner provided in Sections 596 to 600, inclusive, of this Article.

(b) Complaints. Whenever a written complaint shall be made to the Director of Public Health that any building, structure or part thereof is in an insanitary condition, the said Director shall order a hearing of said complaint and fix the time and place therefor. The complaint shall contain specific allegations setting forth the conditions complained of.

(c) Notice of Hearing. Upon the filing of such complaint, the Director of Public Health shall cause a copy thereof, together with a notice of the time and place set for the hearing thereof, to be served personally upon the owner of said structure, building or part thereof complained of, or his agent, or the lessee, or the occupant thereof, and shall cause a copy of said complaint, together with said notice of hearing, to be posted in some conspicuous place on said structure. The time fixed for the hearing of said complaint shall not be less than 12 hours after the service and posting of the copy of said complaint and said notice. Said notice shall require all persons interested to appear at the hearing to show cause, if any they have, why said structure, building or the part thereof complained of, should not be declared insanitary.

(d) Decision. The Director of Public Health, upon conclusion of said hearing, shall decide upon the facts submitted whether or not said alleged condition constitutes a nuisance under the terms of Section 596 to 600, inclusive, of this Article and shall embody said decision in a formal statement setting forth his findings.

(e) Order of Vacation, Etc. The Director of Public Health, upon his determination and finding that the structure, building or part thereof complained of, is a nuisance, shall order the vacation of same for all purposes, and shall cause a copy of said order to be posted in a conspicuous place on the aforesaid structure, building or part thereof determined by said Director to be a nuisance, and a copy thereof is to be personally served upon the owner thereof or his agent, or the lessee or the occupant thereof. The order shall specify the time within which said structure, building or part thereof determined by said Director to be nuisance shall be vacated, and the nuisance abated, and in addition it will further advise the owner that if he fails to do so, said Director will cause the removal and abatement of the nuisance, and in addition will incur penalties as in this Article provided. The owner shall become indebted to the City and County of San Francisco for the costs and charges incurred by the City and County of San Francisco by reason of the abatement and removal of such nuisance.

SEC. 599. ABATEMENT.

(a) Notice to Director. Unless within the time specified by the Director of Public Health, the owner, or his agent, or the lessee, or the occupant of said building structure or part thereof, shall notify the Director of Public Health in writing that he will make or cause to be made such alterations or repairs as in the judgment of the Director of Public Health shall be necessary for the purpose of making said building, structure or part thereof sanitary, the Diretor of Public Health shall proceed to abate the same. If said notice be given as aforesaid the Director of Public Health shall grant a reasonable time to make said alterations and repairs. If said alterations and repairs are not made and completed within said time allowed by said Director, the Director of Public Health shall by formal statement, order, and in accordance with said order, cause the abatement of said nuisance and the destruction of said building, structure or part thereof, herein provided, found and determined to be a nuisance. Abatement shall include, but not be limited to, vacation of the building or structure, the providing of alternate housing for displaced residents of said vacated building or structure, lockup and barricading of buildings or structures, provision of or security of utilities, removal of refuse, debris or hazardous material, rodentproofing, vermin eradication and fencing of the property occupied by the building or structure.

(b) Reoccupation. The structure, building or part thereof vacated hereunder shall not be reoccupied without the written permission of the Director of Public Health, but such permission must be granted when within the time allowed as hereinbefore specified the alterations and repairs required to be made by the

Director of Public Health shall have been made.

(c) Lien for costs. The costs and charge incurred by the City and County of San Francisco by reason of the abatement and removal of such nuisance shall be an obligation to the City and County owing by the owner of the real property which the building or structure occupies and the City and County shall have a lien on said property in all aspects as though notice had been given.

(d) Notice of Cost and Claim of Lien. Upon completion of the abatement and removal of the nuisance, the Director of Public Health shall ascertain the cost thereof. The owner of such real property shall thereupon be obligated to the City and County of San Francisco in the amount of such cost of abatement and removal and the City and County of San Francisco shall thereupon have a lien for such cost upon such real property until payment thereof, which lien shall also include additional charges for administrative expenses of $1,000.00, or ten percent (10%) of the cost of abatement and removal, whichever is higher, and interest at a rate of one and one-half (1 1/2%) percent per full month compounded monthly from the date of recordation of the lien on all fees and charges due as aforesaid. The Director of Public Health shall cause a notice itemizing the cost of abatement and removal to be mailed in the manner herein provided for mailing notice to abate, which notice shall demand payment thereof to said Director, and shall give notice of claim of such lien and of the recording of the same, in the event such amount is not paid, as hereinafter set forth.

(e) Recording of Lien. If the cost of removal and abatement is not paid to the Director of Public Health within 45 days after mailing of notice thereof, the Director of Public Health shall file in the Office of the Recorder of the city and county a

verified claim containing a particular description of the property subject to such lien, the place and general nature of the abatement and removal for which the lien is claimed, the date of posting of said property or delivery of notice to abate and remove the nuisance, the name of the owner of the property as aforesaid and the amount of the lien claimed, which shall include the cost of verification and filing thereof.

(f) Collection by Bureau of Delinquent Revenue. The Director of Public Health shall also transmit to the Bureau of Delinquent Revenue, on the expiration of such 45 day period, a statement of each such unpaid cost of removal and abatement, together with the cost of verification and filing and claim therefor. The bureau shall endeavor diligently to collect the same on behalf of the city and county by foreclosure of the lien therefor or otherwise. Any and all amounts paid or collected shall replenish the revolving fund hereinafter provided.

(g) Release of Lien. On payment of any such claim of lien, the Director of Public Health shall give a release thereof.

(h) Continuing Appropriation Account. There is hereby created a Special Revenue Fund for a continuing appropriation account entitled "Payment of Property Owner's Delinquencies for Abatement and Removal of Nuisances."

The account shall be credited with such sums as may be appropriated by the Board of Supervisors, amounts collected by the Director of Public Health and sums received in consideration of release of liens and payment of special assessments. Expenditures from said sums shall be made to pay for the abatement and removal of nuisances as provided in Health Code Sections 596 through 600. In the event that the unexpended balance in said account shall exceed $200,000.00. such excess shall be transferred to the unappropriated balance of the general fund.

(i) Collection of Expenses as a Special Assessment. The Director of Public of Health may initiate proceedings to make unpaid expenses for removal and abatment of nuisances a special assessment against the parcels of property from which said nuisance was removed or abated by the Director.

(j) Report of Delinquencies Transmitted to Board of Supervisors. A report of delinquent charges shall be transmitted to the Board of Supervisors by the Director of Public Health as necessary, but in no event less often than once each year, commencing with the first anniversary of the date of enactment of this ordinance. Upon receipt by the Board of Supervisors of the report, it shall fix a time, date and place for hearing the report and any protests or objections thereto.

(k) Notice of Hearing. The Board of Supervisors shall cause notice of the hearing to be mailed to the owner of the real property to which the service was rendered not less than 10 days prior to the date of hearing.

(l) Hearing. At the time fixed for consideration of the report, the Board of Supervisors shall hear it with any objections of the owners liable to be assessed for the cost of removal and abatement by the Director of Public Health. The Board of Supervisors may make such revisions, corrections or modifications of the report as it may deem just and, in the event that the Board of Supervisors is satisfied with the correctness of the report (as submitted or as revised, corrected or modified), it shall be confirmed or rejected by resolution. The decision of the Board of Supervisors on the report and on all protests or objections thereto shall be final and conclusive.

BOARD OF SUPERVISORS

(m) Collection of Assessment. Upon confirmation of the report by the Board of Supervisors, the delinquent charges contained therein shall constitute a special assessment against the property to which the services were rendered. Thereafter, said assessment may be collected at the same time and in the same manner as ordinary municipal taxes are collected and shall be subject to the same penalties and same procedure of sale as provided for delinquent, ordinary municipal taxes.

The assessments shall be subordinate to all existing special assessment liens previously imposed upon the property and paramount to all other liens except those for state, county and municipal taxes with which it shall be on parity. Such assessment lien shall continue until the assessment and all interest and penalties due and payable thereon are paid. All laws applicable to the levy, collection and enforcement of municipal taxes shall be applicable to said special assessments.

(n) Severability. If any part or provision of this ordinance or application thereof, to any person or circumstance is held invalid, the remainder of the ordinance, including the application of such part or provision to other persons or circumstances shall not be affected thereby and shall continue in full force and effect. To this end the provisions of this ordinance are severable.

AMENDING PART II, CHAPTER II OF THE SAN FRANCISCO MUNICIPAL CODE (CITY PLANNING CODE) BY AMENDING SECTION 126(e)3 THEREOF TO EXTEND THE INTERIM PERIOD OF TIME FOR LIMIT TO C-3 ZONING DISTRICT DEVELOPMENT BONUSES ADOPTED UNDER ORDINANCE NO. 240-80 FROM SEPTEMBER 1, 1981 TO MARCH 1, 1982.

NOTE: Additions or substitutions are underlined,

deletions are indicated by ((double parentheses)).

Be It Ordained by the People of the City and County of San Francisco:

Section 1. Pursuant to Resolution ~~(No.)~~ of the Board of Supervisors adopting the final negative declaration as its own, and pursuant to Section 302(e) of the City Planning Code, Article 1.2 of Part II, Chapter II of the San Francisco Municipal Code (City Planning Code) is hereby amended by amending Section 126 to read as follows:

(Note: The provisions of Section 126, Sub-sections (a), (b), (c) and (d) below are limited, for an interim period of time, as provided in Subsection (e) below.)

Section 126. DEVELOPMENT BONUSES, C-3 DISTRICTS. (a) In any C-3 district, the development bonuses specified in the following table, where applicable, may be added to the basic floor area ratio limit to determine the maximum floor area ratio for a building or development. Each building feature, and the unit of feature upon which the bonus is based, are more fully described in and limited by Subsection (b) below. Each separate bonus shall be credited where it applies; except that features 1 and 2 shall be mutually exclusive, and features 8 and 9 shall also be mutually exclusive. The basic allowable gross floor area in each case shall be as specified in Section 124 of this Code, and shall not include any development bonus specified herein or any transferred floor area as specified in Section 127 below.

The primary purposes of these development bonuses are: provision of good access to buildings, and improvement of access to properties, from the various forms of transportation serving the downtown area; improvement of pedestrian movement into and out of buildings, along streets and between streets, provision of pedestrian amenity by means of ground level open space; arrangement of buildings to provide light and air to streets and to other properties and protection and enhancement of views.

9. Low Coverage at Upper Floors	Reduction of both building dimensions by 20 or more of the lot dimensions	5% of basic allowable gross floor area for the first 20% reduction of building dimensions; 1% for each 3% reduction thereafter				
10. Observation Deck	Provision of observation deck or similar high-level public space	10,000	10,000	10,000	10,000	Not Applicable

(b) The following criteria shall apply to the building features listed in the table in Subsection (a) above, and to the unit of feature therein upon which each bonus is based.

1. Rapid Transit Access. The access shall be to a city or regional rapid transit system, leading directly to a station mezzanine of such system and conforming to the standards of the transit system, the Building Code and other applicable codes. The access shall be entered from a location within the lot lines of the subject lot, either within or outside a building, and shall be open during all business hours common in the area for use by the general public, marked for their use, and easily reached from a street or alley with a minimum sidewalk width of seven feet.

2. Rapid Transit Proximity. This bonus shall be available for any lot within 750 feet walking distance from a designated station mezzanine of a city or regional rapid system, and shall increase in proportion to the closeness of the lot to such mezzanine. The walking distance shall be measured along streets and alleys with a minimum sidewalk width of five feet, or along passageways conforming to the standards of features 1 above and 6 below. For this purpose, walking distance shall be

taken as the shortest distance from any point along the station mezzanine, to any point along a lot line of the subject property from which there is general access to the subject building.

3. Parking Access. The access shall be from the subject building directly to an automobile parking structure located elsewhere than in the areas of concentrated development of the C-3-O and C-3-R districts. Such parking structure may be either part of or separate from the subject building, but if the parking structure is separate it shall be either in the same ownership as the subject building or part of a Planned Unit Development approved under Article 3 of this Code to include both the parking structure and the subject building. The access shall be open during all business hours for use by occupants of or visitors to the subject building and marked for their use, and shall provide a passage with a minimum width of five feet, separated from streets and alleys. A passageway that is proposed to bridge a street or alley or to occupy any other public area shall be reviewed by the City Planning Commission subject to the criteria for Master Plan review under the City Charter and any other criteria that may be applicable. No parking space to which access is credited under this provision shall consist of a space actually required by this Code for any building or use.

4. Multiple Building Entrances. This bonus shall be available where there is more than one major entrance to the subject building, open generally to occupants of the building for both entrance and exist and readily identifiable to them. All such major entrances shall be accessible from streets or alleys with a minimum sidewalk width of five feet, and shall be located at least 50 feet apart along such streets or alleys. Where a building face at ground level is located more than 20 feet inside the lot line along such a street or alley and contains at least one major doorway, each point at 50-foot intervals along such lot line shall be considered a separate major entrance to the building.

5. Sidewalk Widening. The sidewalk widening shall be along a through street or through alley, shall consist of an arcade, cantilever, building setback or plaza, open at all times to the general public, and shall run the full length of the lot

along such street or alley except for necessary interruptions by features required for safety by other provisions of law, ordinance or the Municipal Code. The widened area shall be directly accessible from the public sidewalk at both ends and along at least two-thirds of its length, and if not fully open to such sidewalk shall have a minimum clear width of seven feet. The widened area shall have a minimum height of 10 feet, and although it may be occupied in part by columns, building services, landscaping and other features, only areas capable of being walked upon shall be credited in computation of the bonus. The maximum creditable depth of the widened area from the lot line at the street or alley shall be 15 feet in the C-3-R district and 30 feet in the other C-3 districts, or 50 feet from the curb, whichever is less.

Notwithstanding the requirements of this provision, concerning accessibility, continuity or horizontal dimensions, landscaped open area located as herein provided at ground level, consistent with the purposes of the bonus system and readily visible from a street or alley or permanent public open space, may be credited as sidewalk widening area within the scope of the 15 percent maxmimum permitted for the sidewalk bonus in Table 2; provided that the bonus awarded shall be three square feet of floor area for each creditable square foot of such open space.

6. Shortening Walking Distances. The shortening of walking distance shall be computed by comparing walking distances along streets and alleys having a minimum sidewalk width of five feet with distances along walkways through the subject lot that are open during all business hours common in the area for use by the general public. Such a walkway may be either within or outside a building, shall be readily identifiable from the public sidewalk, and shall have a minimum width of 10 feet plus two feet for each side which has shops, lobbies, elevator entrances or similar features along it. Where a walkway passes through two or more lots, the bonus shall be prorated in proportion to the length of walkway on each lot.

7. Plaza. The plaza shall be directly and conveniently accessible to the general public during all business hours common in the area, from either a street or alley with a minimum sidewalk width of five feet, a feature conforming to the

standards of 5 or 6 above, or a permanent public open space. The creditable plaza area shall be located at least 20 feet inside the lot lines separating the lot from the streets and alleys, shall have a minimum entrance width of 10 feet, and shall be at least 30 feet in its horizontal dimensions. For the purpose of measuring such minimum horizontal dimensions, space occupied by a feature conforming to the standards of 5 above may be counted for up to one-third of any dimension; however, no area credited under 5 above shall also be credited as plaza area. Up to two-thirds of the surface of the creditable plaza area may be occupied by planting, sculpture, pools and similar features, and the balance shall be suitable for walking, sitting and similar pursuits. Any building servicing requiring the presence of vehicles or goods in the plaza area shall be confined to times other than the business hours common in the area. Encroachments permitted by Section 136 of this Code for usable open space shall be permitted for the creditable plaza area.

Notwithstanding the requirements of this provision concerning accessibility or horizontal dimensions, landscaped open area located as herein provided at ground level, consistent with the purposes of the bonus system and readily visible from a street or alley or permanent public open space, may be credited as plaza area within the scope of the 15 percent maximum permitted for the plaza bonus in Table 2; provided, that the bonus awarded shall be three square feet of floor area for each creditable square foot of such open area.

8. Side Setback. The side building setback shall extend upward from a height of not more than 40 feet measured at the front of the setback, and shall also extend for the entire depth of the lot. The side setback shall be located either along a lot line which intersects a street or alley and does not itself separate the lot from a street or alley, or in an equivalent position between two buildings or building portions on the same lot exceeding 40 feet in height. The setback area shall be unobstructed to the sky and shall have a minimum width of 20 feet. Setback areas of irregular width may be credited, provided the minimum width of 20 feet is maintained and no part of the setback area to be credited is separated by a building from the street or alley which the setback intersects. The maximum

creditable width of the setback area shall be 50 feet.

9. Low Coverage At Upper Floors. Each open area credited under this bonus shall extend upward unobstructed from a height of not more than 80 feet measured at the front of such open area, and shall also extend for the entire width or depth of the lot. The bonus shall be based upon reduction of both the overall width and the overall depth of the building by a minimum of 20 percent of the respective lot dimensions, with additional bonus awarded as both such dimensions of the building are further reduced. Where the building is not located parallel to any of the lot lines, the overall dimensions of the building shall be measured as appropriate to the specific siting of the building in relation to the lot and to streets and alleys.

10. Observation Deck. The observation deck or similar public space shall be located at or above the 20th story of the building and shall be of sufficient size to accommodate at least 50 persons at one time. Such space shall be advertised at ground level, and shall be open during the day and evening to the general public without the necessity of their doing business in the building other than paying an admission fee for the sole purpose of gaining access to the observation area.

(c) In application of the bonuses provided for in this section, the Zoning Administrator shall follow such procedures, including placing of restrictions on the land records and other actions, as the Zoning Administrator may deem appropriate to assure the provision and retention of such building features as are credited in order to meet the requirements of this Code.

(d) In the C-3-O district, notwithstanding the development bonuses afforded by Subsections (a), (b) and (c) of this section, and in lieu of any and all such development bonuses, for a lot or portion thereof which is defined by this Code as a corner lot, a floor area premium may be added by increasing the area of the lot or portion, for purposes of determining the maximum floor area ratio for the building or development on such lot, by 20 percent.

(e) The provisions of Subsections (a), (b), (c) and (d) above shall be modified by interim controls on development bonuses as described below:

1. Purposes. These interim controls are adopted in order to prevent

conditions in the downtown area from substantially changing during the period in which comprehensive revisions to the downtown zoning provisions are prepared and considered for adoption, while continuing to provide for hotel and residential development which supplies needed new dwelling units and serves to relieve the market pressures which have fostered the conversion of existing dwelling units to hotel use. These interim controls are found and declared to be necessary to fulfill the purposes of this Code as stated in Section 101 hereof.

2. Standards. During the period of time and applicable to those developments described herein, development bonuses enumerated in this Section may only be permitted through conditional use authorization pursuant to Section 303 of this Code and only for hotel and residential uses.

3. Duration. The controls of this Subsection (e) shall be in effect until March 1, 1982.

4. Where Applicable. These interim controls shall apply only to any development for which neither a building permit application nor a preliminary draft environmental impact report has been first filed with the City on or before January 3, 1980, provided that these interim controls shall not apply to any development which meets the following conditions:

(A) The developer informed Department of City Planning in writing by March 1, 1979 of intent to develop by filing schematic or preliminary plans and requesting Department of City Planning review, and continued thereafter with diligent efforts leading to the future filing for a building permit, including but not necessarily limited to:

(1) Continued discussion between developer, architects and Department of City Planning of development guidelines and/or critique of proposed building designs, and

(2) Contracting for preparation of an environmental impact report, with subsequent discussion between the consultant and the Department of City Planning concerning the project prior

to May 1, 1979, and

(3) Professional preparation of technical data for environmental evaluation, and

(4) Professional preparation of plans necessary for obtaining a building permit; and

(B) The developer filed applications for demolition permits for existing buildings on the site to be developed by August 1, 1979.

The controls shall not apply to any Redevelopment Project Area for which a Redevelopment Plan has heretofore been adopted.

5. Relationship to Other Standards. The provisions of this Subsection (e) shall apply in addition to all other provisions of this Code. In cases of inconsistency among provisions, the most restrictive provision shall prevail.

AUTHORIZING THE DIRECTOR OF PUBLIC WORKS AND CLEAN WATER PROGRAM TO TAKE NECESSARY MEASURES TO PROTECT THE HEALTH AND PROPERTY OF THE CITIZENS OF SAN FRANCISCO BY ENLARGING THE SEWER IN INNES AVENUE BETWEEN EARL STREET AND GRIFFITH STREET; AN EMERGENCY MEASURE.

Be it ordained by the People of the City and County of San Francisco.

Section 1. Rehabilitated housing units on former Navy property at Hunters Point will be offered for sale to the public beginning October 1, 1981. Since the units will no longer be on Navy property, the sewer system must be re-connected to the City sewer in Innes Avenue. However, the existing sewer in Innes Avenue is already inadequate for its service area, and the additional sewage from the housing units will further exceed the capacity of the existing sewer, and will result in sewage overflowing onto the street and into the bay.

Section 2. The Director of Public Works and Clean Water Program is authorized to proceed in the most expeditious manner to correct an imminent hazard by engaging a duly licensed contractor to enlarge the sewer in Innes Avenue between Earl Street and Griffith Street by constructing a new 21-inch diameter sewer to replace an existing 12-inch diameter sewer, and a new 30-inch diameter sewer to replace an existing 18-inch diameter sewer. The cost of the work is estimated at $206,500.00.

Section 3. An emergency is hereby declared to exist under the provisions of Section 2.301 of the Charter of the City and County of San Francisco, the reason for the emergency being to provide for the immediate necessary abatement of an imminent hazard to the health, safety and properties of the citizens of San Francisco by doing the necessary work described in Section 2.
